Moss Tents <http://www.mosstents.com/>
By: Irene Boettcher

"May I recommend the formerly made in Maine Moss Tents? We survived ALL THREE NIGHTS camping out of doors at RA in Quebec rally (the INFAMOUS "RAIN" Quebec) along with several Nova Scotia fellows also in Moss Tents. High ground and state of the art protection paid off big time. I just bought my second Moss, the original is still in service as our lightweight overnight solo tent, the second is a three-person for more stationary use such as at rallies.
