

BMWRSM monthly meeting minutes, April 1, 2006

Attendees: 47

The parking lot was full of bikes for the April meeting. President Jim Salisbury called the meeting to order and introduced Bruce & Becky Seigars, MSF Instructors. They offer a basic rider course, an experienced rider course, and a permit course. Classes are held in Topsham. They are offering an ERC class in August. If interested, you can contact them at 882-4634.

Jim reminded all of a BMWRSM Board of Directors meeting on 4/9/06, 8AM at the Country Buffet.

Don Lockhart mentioned an 05 R1200ST he knew was for sale in North Yarmouth. Bike has been posted on the Website for sale area if interested.

James Nice read a very funny story about a biker who gets attacked by a squirrel. If you missed it, check this link out: http://www.vtwinmama.com/demonic_squirrel_riding_story.htm

Jim Salisbury talked about the MOA rally in VT this July. He will be inquiring into opportunities to volunteer. A show of hands indicated many club members are going.

Katie from Street Cycles mentioned some concerns over an "ABS recall" on some of the newer bikes. She said there was no open recall, but if you were concerned at all about it, they would do a free check on your bike. She also mentioned an open recall on the newer R1200 and K1200 bikes where a software problem could potentially leave a circuit open and drain your battery. The recall involves a simple software download to update the onboard computer programming.

John Reimann was not at the meeting to discuss the rally.

Submitted by Don Lockhart (filling in for Paul)
