

BMWRSM October Club Meeting

Thirty-six brave souls braved the weather mans projections and rode, or drove to Cole Farms for the BMWRSM's monthly meeting. Some new members and a few old friends greeted a number of our regular attendees.

Welcomed to the club was Jack Kline from Lisbon Falls, Peter Mitchell from Yarmouth and welcome back to Bob Humphreys from Cumberland. Also, a special welcome home to Walker Adams. Bob Wisniewski from Milford, NH joined us for a regular meeting on an outstanding R60RT.

Mike Cocks brought our new club banner and displayed it for all to admire. Thank you Mike and thank you Mike McCarthy for helping the club acquire such a nice banner.

All club members were made aware of Clarence Falarski and Rachel Perry's accidents. Clarence was in a motorcycle accident and Rachel was hurt in an accident at camp. Both, I'm sure would like to hear from all of us during their recovery. Clarence can not receive flowers so a card would be appropriate, as I'm sure Rachel would welcome as well. Clarence and Rachel's mailing address can be found at the end of these meeting minutes.

The March of Dimes ride as hindered this year by some poor weather, but I believe that the fund raising was approximately the same as last year. We, also, received good news on the Bar Harbor mini-rally, from the MOV rally, Fingerlakes and other rides taken this past month. Dave Stone would greatly appreciate an article for the BMWRSM NEWS on our adventures and misadventures for the forthcoming issue.

Bob Humphrey's continued the luck of the newbie by winning the 50-50 drawing. Ask Jim Salisbury how this happened? Hint there is a story there.

Reminder for all MOA members. This month MOA NEWS includes the mileage forms to be completed and returned. Saturday, October 11, would be a good time to meet at Street Cycles with your forms for completion and signatures. Dwayne will mail them in for us.

Irene notified us that this years Larz Andersen European motorcycle event will be the last such event sponsored by the Yankee Beemers. Therefore, Sunday October 12, will be a last chance to view a large number of outstanding examples of our favorite ride. Secondly, the Yankee Beemers lecture series commemorating BMW's 80 years of manufacturing motorcycles is continuing. Check the Yankee Beemers website for time and places of the remaining lectures.

Lastly, we are continuing to seek members who will to step forward and volunteer to run for club president, vice president, etc. Be part of the development of a great organization, be an officer.

See you all next month or sooner on the road
Steve Garrett
Vice Prez

Clarence Falarski
